Det giver god mening at gå ud i verdenen og sparre med andre. Det blev vi igen bekræftet i, da Marie Brammer Nejrup og Asta Hooge Poulsen fra Fors A/S deltog i konferencen #COCONF19 i Roskilde Kommune med fokus på FN's #verdensmål. Vi fik blandt andet gode inputs til vores projekt, bæredygtig opretning af #spildevandsslam, og managementet åbnede også op for nye samarbejdsrelationer.

DAGBLADET

17 PARTNERSKABER FOR HANDELING

"I would happily make the trip from Southern Denmark every year – I really enjoy participating"

"The best thing was the atmosphere. I really liked the gathering of different people, with different competences meeting and agreeing that inspiration and partnerships is the way to move forward. And the cake was good as well"

"THANK YOU. It was a really good opportunity for educational institutions, researchers, and industries to gather around innovation"

"Good presenters, good program, great catering and humor"

"I hope that COconference20 will turn out as great as COconference19"
